Setting the stage – Promoting exchange between research, policy and practice

SWISS PUBLIC HEALTH CONFERENCE 2020

Prof. Gerold Stucki
Department of Health Sciences and Medicine

The Challenge

Research

Policy and Practice

The Challenge

Research

Policy and Practice

…bring **evidence** into **policy** and **practice**

The Challenge

Research

…wants to bring **evidence** into policy and practice

Making it happen

…wants to bring evidence into **policy and practice**

The Challenge

Research

…wants to bring **evidence** into policy and practice

Making it happen

…wants to bring evidence into **policy and practice**

Knowledge Translation
or
Exchange?

The Challenge

Research

…wants to bring **evidence** into policy and practice

Making it happen

…wants to bring evidence into **policy and practice**

Model 1: the crane – unidirectional
Model 2: the ferry – partnership
Model 3: the bridge - structural

A promising approach
The Learning Health System
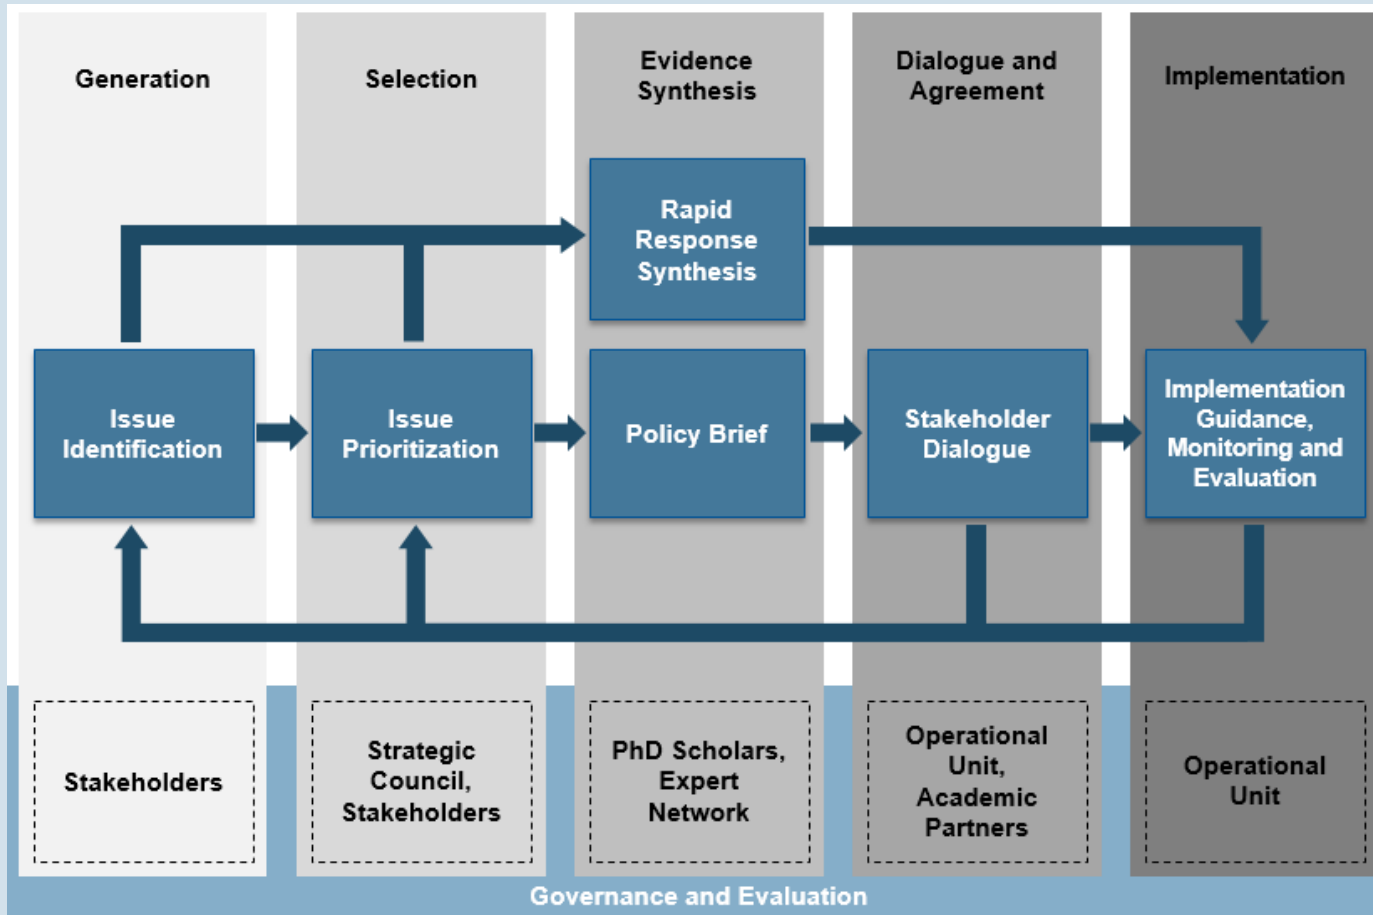

Goal of the Swiss Learning Health System

To develop a national infrastructure

for a learning health system

to support the interaction of research, policy and practice.
